

# **BMS**

## **NOTEBOOK SECURITY**

### ***J-Loc Cable Kit***

The *J-Loc Kits* are specially designed to secure Notebook Computers, LCD Projectors, Zip Drives, and any other piece of equipment that provides a security slot in its case. The cable is removable from the lock allowing you to secure multiple pieces of equipment.

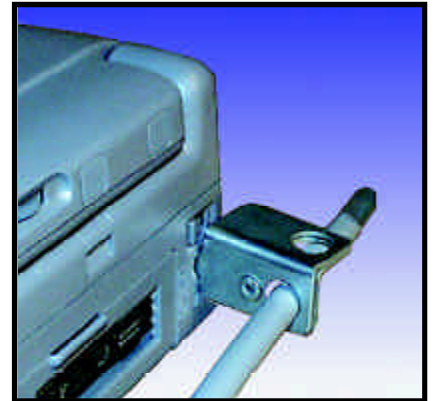

### ***Hook Loc Cable Kit***

**Versatile:**  
The *Hook Loc Cable Kit* can work in conjunction with any other BMS cable kit.

**Economical:**  
This is an effective and economical security kit available for Notebook security.

### ***NB Locker***

The brand new *NB Locker* will secure your Notebook computer when you are away. When closed the entire Notebook will be protected from unauthorized use.

With the locking device opened the Notebook will be completely functional. Openings in the back of the *NB Locker* allow for peripherals to be connected.

This device can be permanently mounted with screws or high bond adhesive to the underside of the work surface.
